Sidney, Ohio 45365

RE: Variance Application — 2599 State Route 29, Sidney, Ohio — Final Resolution

Dear Mr. Bowman,

This letter serves as formal notice of the final resolution regarding your variance application submitted to the Clinton Township Board of Zoning Appeals. The application sought approval to construct an additional accessory building on your property at 2599 State Route 29, Sidney, Ohio, which required a variance from the Clinton Township Zoning Regulations governing accessory buildings.

As you are aware, the Clinton Township Zoning Regulations permit only one (1) accessory building per residential property. Your application was reviewed over the course of three (3) Board of Zoning Appeals hearings, summarized as follows:

First Hearing — December 21, 2025: The Board of Zoning Appeals reviewed your application and, after deliberation, voted to **deny** the variance request.

Second Hearing — March 17, 2026: The matter was brought before the Board of Zoning Appeals a second time. Following review and public comment, the Board again voted to **deny** the variance request.

Third Hearing — April 7, 2026: At the third hearing, you advised the Board that you had revised your building plans and that a variance is **no longer required**. Specifically, you indicated that you will reduce the size of the proposed structure and **attach it to the existing accessory building**, resulting in a single combined

accessory building on the property. This approach brings the project into compliance with the township's zoning regulations, as there will be only one accessory building on the property.

The Board of Zoning Appeals accepted your revised approach. However, please be advised of the following condition attached to the issuance of a zoning permit for this project:

> **Stipulation:** A zoning permit for the proposed construction will be issued **only upon the removal of all shipping containers currently located on the property** at 2599 State Route 29. The zoning permit application may be submitted at any time; however, no permit will be issued until the shipping containers have been removed and the Zoning Administrator has confirmed their removal.

Once the shipping containers have been removed, please contact the Clinton Township Zoning Administrator to schedule an inspection confirming removal and to proceed with issuance of your zoning permit. At that time, you will also need to submit a completed zoning permit application along with your revised building plans for the attached structure.

If you have any questions regarding this matter or the permit process, please do not hesitate to contact the undersigned.

Sincerely,

Rick Paulus
Clinton Township Zoning Administrator
